---

Douglas College diploma graduate with two years of React and Node.js college projects. Builds authenticated web applications and REST APIs, tests backend behaviour, and investigates deployment issues. Brings customer-facing business experience and a website used by Globalfer customers.

## EDUCATION

**Douglas College | New Westminster, BC**

Diploma in Computer Studies & Information Systems | 2024-2026

Relevant coursework: Full Stack Development with JavaScript; Database I/II; Cloud Infrastructure.

## TECHNICAL SKILLS

**Development:** JavaScript, React, Node.js, Express, HTML/CSS; TypeScript knowledge

**Data & APIs:** MongoDB, SQL Server coursework, REST APIs, Firebase Authentication, Socket.IO

**Testing & Delivery:** Jest, Supertest, Git/GitHub, Docker, GitHub Actions, Linux; GCP/Terraform coursework

## SELECTED PROJECTS

**Silent Auction | College / Personal Project**

React, Node.js, Express, MongoDB, Firebase, Socket.IO

- Built authenticated listings and REST APIs with persistent auction data and real-time bidding.
- Validated bids on the server before broadcasting updates to connected users; troubleshot frontend, backend and database interactions.
- Used Jest/Supertest, assertions and mocks to test API behaviour and catch regressions.

**Globalfer Website | Business Project**

React, Vite, Node.js, Express, Firebase Hosting, Cloud Run

- Built a company website and implemented a form-to-WhatsApp quote-request workflow used by customers when telephone lines were busy.
- Investigated a Vite/esbuild failure by verifying the build in a clean local clone; used Codex-assisted security review and verified fixes with 179 passing tests.

**Cloud Infrastructure | Coursework**

GCP, Terraform, Ubuntu, Apache

- Provisioned cloud infrastructure and configured Apache on Ubuntu; load-tested 15,000 requests with 100 concurrent connections.

## WORK EXPERIENCE

**Globalfer | Brazil**

Branch Manager / Operations Coordinator | January 2017-August 2020

- Assisted customers with deliveries, product recommendations and overdue bills; explained options and followed through on requests.
- Coordinated daily branch operations and supervised a small team, working directly with company leadership.

**Languages:** English and Portuguese
